Broadway and Twentieth Street and Fifth Avenue.

### UNIONS STIR HERR CONRIED.

OPERA MANAGER AT THE CIVIC FEDERATION MEETING.

Says That Things Can't Go Next Year as They Did This—New Committee on Trade Agreements—John Mitchell Declares for Strikes and Lockouts.

Heinrich Conried of the Metropolitan Opera House turned up at yesterday's meeting of the executive committee of the Civic Federation at the Fifth Avenue Hotel. He was there as a representative of the Theatrical Managers' Association, but did not make a speech to the committee.

Mr. Conried, who has had troubles of his own with the Theatrical Protective Union and the Musical Mutual Protective Union, had talks with some of the labor leaders, including John Mitchell. After the meeting he spoke vigorously and freely about his dealings with the unions.

"He declared that some of his best scenic effects had been ruined because he could not get the men he had trained to make the necessary shift when he wanted them. Asked what he intended to do next season if the unions followed last year's tactics, he said:

"I am going to stop it. I must. It is utterly impossible to do my work under such conditions. I have tried to be absolutely fair, but I cannot have my work ruined by petty quarrels. I have even put up with insults in order that I might not be considered peremptory in giving orders to my own employees in my own opera house. I will not next year go on as I have been doing."

At the meeting a new committee, known for the present as the committee for promoting joint trade agreements, was appointed. This was one of the committees which was included in a plan of the late Senator Hanna for extending the scope of the Federation.

On the committee are eighteen employers and nineteen heads of unions. The employers included Marcus M. Mott, president of the National Association of Clothiers; John Cooper, president of the Iron League, and representatives of the railroad, printing, building and manufacturing industries. It will meet at the call of the chairman, Francis L. Robinson.

The first speaker at the meeting was John Mitchell, president of the United Mine Workers. He reiterated his belief that the right should be conceded to employees to strike and to employers to declare lockouts. He also said that he was not always in favor of leaving matters to arbitration. Arbitration might be preferable to strikes and lockouts, but he found the trade agreement the best. Then he said:

"I believe in strikes. I also believe in lockouts. But I believe that the employer should be allowed to have his property protected by peaceful means for settlement. Nothing can make so much for industrial peace as the recognition of the independence of labor and capital. The great associations of employers and employees have come to stay as well as the trade agreement."

In answer to several questions, Mr. Mitchell said he would not consent willingly to arbitration of the eight hour work day. He was also against arbitration of the question of wages.

### 1,500 AT PARKS FUNERAL.

Large Procession Follows the Hearse, but There's No Demonstration.

The funeral of Sam Parks, former leader of the Housewives and Bridgemen's Union, took place yesterday from the residence of his widow, 211 East Eighty-seventh street. There was no attempt at a demonstration, but 1,000 members of the union, with about 500 workmen in other building trades, paraded behind the hearse. The housewives marched four abreast, each man wearing a black badge.

Behind the hearse came a carriage filled with flowers, followed by twenty-three other carriages, nine of which were empty. The funeral services were conducted at the house by the Rev. Henry Hebler of Zion Lutheran Church, on East Eighty-fourth street. The funeral procession started shortly after 2 o'clock P. M. and marched to Third avenue, down Third avenue to Second avenue and back to the house again. The procession then went through various streets and marched down Ninety-second street to the ferry, where the body was taken to the Lutheran cemetery at Middle Village, L. I.

The pallbearers, of whom there were ten, included former Walking Deaf, Deaf and Masey and one or two other members of the Housewives and Bridgemen's Union who stood by Parks.

### Pastor Lewis Francis Resigns.

After a pastorate of nearly thirty-one years the Rev. Dr. Lewis Francis of the Kent Street Dutch-Reformed Church, in Greenpoint, has tendered his resignation, to take effect in September. Ever since his twenty-fifth anniversary as pastor of that church he has desired to resign, but the consent of the church has prevailed upon him to remain.

### RACKET KEEPS 'EM AWAKE.

Park Avenue Residents Go to Court to Complain About the Railroad Work.

A delegation of women residents in the neighborhood of Park avenue and Forty-fifth street was in the Yorkville police court yesterday to complain of the noise made at night by the workmen who are changing the grade of the New York Central Railroad tracks in Park avenue.

Dr. Carrie Wolfbrink of 454 Lexington avenue was spokeswoman. She said the delegation represented about one hundred residents of the neighborhood who had suffered much by the racket made by steam shovels working all night and by blasting at frequent intervals.

The physician had obtained a summons for the man in charge of the work, John J. Murray, the transportation manager of the New York Central Railroad, appeared. He wanted to inform the court that he was in charge of the work and had nothing to do with it. The O'Rourke Construction Company, he asserted, was responsible for whatever was done there.

"The inspector who was very insulting to Dr. Deane of 454 Lexington avenue, who served the summons," the woman said. "When Dr. Deane gave him the summons he told this gentleman that he was unable to sleep at night because of the noise. This gentleman told the doctor to go home and take some dope and then he could sleep."

"I meant that as he was a physician he could take some of his own medicine for insomnia," Murray explained. He said that the contractors were trying to finish the Park avenue tunnel improvements as quickly as they could and were working night and day.

"Why don't you complain to the Board of Health?" Magistrate Pool asked the spokeswoman.

"We did complain, and the inspector of the Health Department said the improvement was for the good of the city and could not be interfered with. We only wish the steam shovels would not work after 10 o'clock at night," she answered.

"The inspector who talked that way is not fit to be in the city's service," said the Magistrate. "The residents have some rights, and if this work on the railroad tunnel is a nuisance, a remedy should be applied, and I will hold an examination to determine the merits of the case."

The Magistrate said he would have the responsible men in court to-morrow and see what could be done to lessen the noise. He then issued summonses for John Doe and Richard Roe.

### WILL OF ASHBEL P. FITCH.

No Public Bequests—Division Among the Widow and Children.

The will of Ashbel P. Fitch, who died on Tuesday last, was filed for probate yesterday. His son, Ashbel P. Fitch, Jr., as executor, estimates the estate at "over \$100,000." The will was made on June 17, 1901, and a codicil was added on July 30, 1901. The widow and George E. Mott are executors with the son.

Mrs. Fitch inherits all the household effects and appurtenances of her husband's courtly home at Tarrytown, together with \$50,000 absolutely and a life interest in the residuary estate. There she has a farm, however, the residuary estate reverts to the children, as it does when she dies.

The testator's jewelry is divided among his three daughters, Elizabeth C. Oelsh, Doris Fitch and Ella S. Chalmers. One son, Littleton Fitch, is to buy himself a \$250 gold watch, on which his father's name is to be engraved, and he also inherits Mr. Fitch's fowling pieces and fishing outfit.

The other two sons, Morton and Ashbel, inherit various mementoes of their father. Ashbel is to have the law library, but the general library is to be divided among the children equally.

A sister, Mrs. Alice M. Taylor, is to have the income of \$10,000 for life, the fund reverting to the testator's daughters. For each of the latter a trust fund of \$50,000 is created, and trusts of \$20,000 for each of the sons. When the daughters reach 30 years they will inherit the principal of their trusts, and the sons get theirs at 35. To Ashbel P. Jr., \$20,000 is left absolutely.

### PRESIDENT GARTH LEFT \$148,306

And No Will, So Wife and Children Take the Estate in Shares.

The estate of Granville W. Garth, formerly president of the Mechanics' National Bank, who jumped off a Mallory liner at sea and was drowned, has been appraised at \$148,306 in net personal property. It consists of 1,263 shares of Mechanics' National Bank stock, worth \$74,201, and a balance due to him by the bank of \$71,786, on the sale of some collateral which he had put up to secure a loan of \$85,000. His debts and the expenses of administering the estate amounted to \$10,041. There being no will, the widow and three children inherit the estate.

### New Nassau Street Office Building.

Frederic Day has purchased from the Henderson estate No. 73 Nassau street, an old four story and basement building. It is understood that he has also secured the adjoining plot and that he will erect on the combined plot a ten or twelve story office building. It was at 73 Nassau street that Aaron Burr had his law office.

## Lord & Taylor,

Broadway and Twentieth Street and Fifth Avenue.

### GIFT OF \$500,000

Made by Mother Katherine, Who Was a Brevet, for a School for Indians.

Mother Katherine, who was one of the Philadelphia Drexels and who founded the order of The Sisters of the Blessed Sacrament for Indians and Colored People, announced yesterday that she had given \$500,000 for the establishment and endowment of a school for the Winnebago Indian children on their Nebraska reservation about twenty miles from Sioux City. The gift is presented to Bishop Garrigan of Sioux City and carries only one condition, that the Indians first give their consent to the establishment of a Catholic school on the reservation.

### FAMOUS MONK COMING HERE.

Father Bailly de Surey, Head of an Order of Augustinian Fathers.

The Very Rev. Emmanuel Bailly de Surey, Superior General of the Augustinian Fathers of the Assumption, will arrive in the United States from Rome next Wednesday. He comes to arrange for the establishment of a number of branches of his order and will remain at the rectory of the Augustinian Fathers on West Fourteenth street. Later he will visit his monastery at Greendale, near Worcester, Mass., and will go to St. Louis some time in June, where he will arrange for a St. Louis province.

Father Bailly de Surey is the son of the eminent French Catholic who founded the Conference of St. Vincent de Paul in Paris many years ago. Another son of M. Bailly de Surey, Fernand, was killed in Belgium, where he was enlisted to Belgium.

Assumptionist, was prominently identified with the literary work of the order in France, including the paper *Le Croix* and various magazines. He was killed to Belgium, where he was now continuing to labor as assistant Superior General, although more than seventy years of age.

### CATHOLIC PROTECTOR HEAD.

Brother Henry Chosen to Succeed the Late Brother Leontine.

The official certificate of appointment of Brother Henry of the Brothers of the Christian School as director of the Catholic Protector for wayward or neglected Catholic boys was received from Paris yesterday. This position is one of the most difficult to fill in the entire order. The office was held by the late Brother Leontine, who was head of the Protector for years.

The letter of appointment from the Superior of the order was read in the great hall of the institution last night. Brother Henry had been the assistant of Brother Leontine for the last five years.

Benjamin Provincials to Go to Rome. All the provincials of the Dominican order in the United States will sail for Rome on Tuesday to attend the election of a superior for the entire order all over the world. The election takes place every twelve years.

### First California Cherries Here.

The first shipment of California cherries reached New York yesterday. It was a ten pound box and was sold for 25c. The record price for cherries was 25c paid for a two pound box that reached Philadelphia.

We've grown six stories just making satisfactory clothes. Reasonable prices built the place. For instance, we ask \$20 for suitings that have a right to a \$40 charge.

What's more to the point, we'll build a suit to measure for \$16 that can be compared with any \$25 suit made elsewhere, or no sale.

Send for samples, measuring blanks and fashion cards!

## ARNHEIM

Broadway & 9th St.

### NEW IMMIGRANT BOAT TRIED.

Nothing Finer and Nothing Much Faster in the River Hereabouts.

The immigration bureau's fine new green ferryboat, Ella Island, made her trial trip up the North River yesterday afternoon to a point opposite Yonkers and back, and showed that she is probably as swift as any craft of her class in the harbor. Secretary Corley of the Department of Commerce and Labor; Frank Sargent, Commissioner-General of Immigration; Inspector-General George Usher of the Steam Vessel Inspection Service, Surgeon-General Walter Wyman, Capt. Newcomb and Lieut. Kotschmar of the revenue cutter service were the guests on the trip of William Williams, Commissioner of Immigration.

The ferryboat is lighted by electricity, has four watertight bulkheads and a double bottom, and her cabin fittings are of polished ash. There is not a finer looking boat in the river-crozier line hereabouts.

### Can't Examine Morse Before Trial.

Supreme Court Justice MacLean decided yesterday that Charles W. Morse, the former president of the American Ice Company, need not submit to an examination before trial in the suit brought against him by John E. McDonald to recover \$200,000. McDonald alleges that he invested large sums in ice stock on the understanding that Morse would not unload his holdings on the market without giving McDonald warning, and that Morse did unload so that McDonald could not get anything like the price for his stock that he had paid for it.
